BIG DRUM'S

Graphic Design & Branding Services

Big Drum Digital is a full-service graphic design and branding, website development, and marketing agency based in Northern California. We build memorable digital experiences tailored to each stage along the buyer journey, inspiring conversions, and building stronger customer relationships.

LET'S CHAT

VISUAL BRAND IDENTITY & GRAPHIC DESIGN

It's no secret that a strong brand identity is the foundation of nearly any profitable business. Color palettes, iconography, typography, imagery—these are the key ingredients. And they must come together in a perfectly-balanced formula to make a memorable first impression. Thankfully, we consider ourselves masters in the visual brand identity 'kitchen,' boasting a team of talented designers with years of experience transforming concepts and ideas into reality.

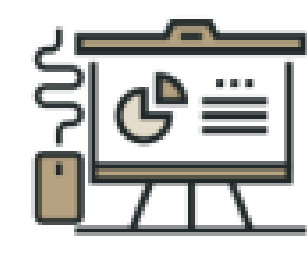

BRAND STYLE GUIDES

Once a core brand identity has been established, procedural guidelines must be put in place to make sure that the brand can change and evolve over time – without undergoing an identity crisis. Look, feel, mission, and tone of voice are clearly outlined in each brand style guide: These documents serve as a central resource for nearly every facet of business operations moving forward, from production to marketing and customer service.

BROCHURES & MARKETING COLLATERAL

Whether you're producing a handful of standalone newsletters or plan to distribute year-round direct mail pieces, publications, or reports, we have the design expertise. Create the type of print collateral your customers or stakeholders will want to engage with.

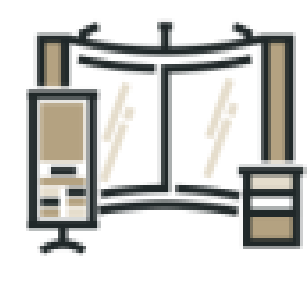

SALES PRESENTATION DESIGN

You need to nail the sales pitch, but you can't do it without a presentation that sparks enthusiasm (and can capture wandering attention spans). We'll collaborate directly with your sales team to put together the right set of visuals and talking points. Simplifying your message, secure buy-in, and motivate your audience to want to learn more.

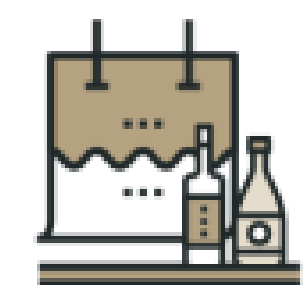

ADVERTISEMENTS

Whether printed on a billboard or displayed on a screen, ads get your brand in front of more sets of eyes. Make those impressions count by trusting our team with the ideation, design, and execution of print and digital advertisements. We think outside the box to create catchy ads that speak to your brand's core value propositions (with exactly the right audience in mind).

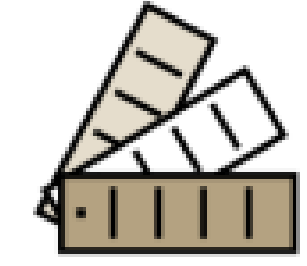

ENVIRONMENTAL DISPLAY & TRADE SHOW GRAPHICS

The spaces that your customers physically enter set the tone for their experience in an entirely different way than, say, your website, or your print advertisements. Large-format graphics and environmental displays need to be given special attention from a branding perspective—subtlety is key. Our trade show graphics convey both the information and the ambiance you want to get across.

POINT OF SALE & MERCHANDISING

Making your products stand out in an often-crowded retail sales environment isn't as simple today as it once was. That's why we put in the extra effort to create truly memorable, eye-catching displays and signage that customers won't be able to glance over. From free-standing displays and floor graphics to end caps, window clings, shelf talkers and signage danglers, we've got your POS materials covered.

PRINT PRODUCTION MANAGEMENT

We work with several highly-regarded printers in the California region and are proud to offer clients end-to-end print production management services. Our designers consult with printing professionals on paper, materials, and printing techniques to ensure every piece of in-print sales or marketing collateral (from brochures to posters, mailers, and newsletters) is executed to perfection.

Design & Development centered around the way you work.

FREE CONSULTATION

We understand that not all companies are built the same. Whether you have a large Marketing department or Development team, or no team at all, we are here to fill in the gaps where needed. We'll partner with you to ensure you get the results you need to succeed. We specialize in Creative & Development Management so you don't have to. Our dedicated project managers provide a framework for working together, ensuring continuous strategic review, alignment and communication. Our creative & development services are delivered by a team of specialists – at a fraction of the cost of an in-house team.

WE ARE BIG DRUM DIGITAL

Digital Marketing Agency

It's what keeps sales moving and what gets people talking about your brand. And it shouldn't be boring. We have the expertise in SEM, SEO, digital strategy, and lead generation to help you hit your goals and become even more competitive in your industry.

SEARCH ENGINE OPTIMIZATION (SEO)

Today, search engine optimization involves a whole lot more than stuffing your blog post or landing page with repetitive keywords. We're experts in both on-page and technical SEO and stay up-to-date on the latest algorithm updates and search marketing trends. Get your site on the first page of the SERPs with help from our team of SEO aficionados.

GOOGLE ANALYTICS

Google Analytics allows businesses to unlock critical information about their website performance and site visitors. Unfortunately, much of this data gets overlooked, leading to missed opportunities. At Big Drum Digital, we understand the importance of getting familiar with data – and we'll help you dig up the most important insights about your website on a weekly, monthly, or quarterly basis.

PAY-PER-CLICK (PPC) CAMPAIGNS

Pay-per-click search engine marketing is still one of the most popular methods brands use to increase web traffic and capture leads. Executed properly, it can generate substantial revenue – but PPC also requires ongoing monitoring and management to maintain profitability. That's what we do best: Our PPC specialists know just how to tweak your campaigns to generate the best possible return on your ad spend.

STRATEGY AND ANALYTICS CONSULTING

We offer digital marketing strategy overviews and consulting services designed to help you get the most out of your marketing spending. During each consultation, we'll identify immediate goals, evaluate a range of options across digital channels, and recommend priorities for action. We take a data-driven approach to all recommendations, using analytics to assess historical performance and identify core opportunities.
