Description Info Specifications

Each of these perfectly sized porcelain spoon rests are handmade and glazed, taking on a graceful shape that brings a unique flourish to your kitchen. Ideal for the multitasking chef, each spoon rest accommodates a different size spoon: The largest is made to house a carved wooden spoon or soup ladle, the smallest for a tasting spoon or teaspoon, and the medium-sized for just about anything in between. When not in use, these spoon rests can be nested on top of one another and placed on your counter or stovetop as a beautiful, minimalist accent piece.

Give your extra virgin olive oil the presentation it deserves with this three-piece porcelain serving set. Store your premium dipping oils in the corked bottle; when it's time to serve, easily pour from the bottle's shaped spout into the included serving dish. Use the leaf-shaped tray to arrange chunks of artisanal bread, olives, and charcuterie – or just to catch any rogue drops of oil. This set makes a perfect housewarming gift (just add a bottle of your favorite Italian olive oil), but we'd recommend keeping one for yourself, too.
